To IHMSA Members

Incorporating all the features that have made Dan Wesson Arms a leader in the double-action field:

Interchangeability - Grips (target models), and barrels.

Versatility - Adapt a Dan Wesson revolver to a variety of shooting in a matter of minutes.

Dependability - Unique front lockwork and design of internal parts placement adds to dependability.

Accuracy - Barrel is under tension and secured at both ends with the cylinder latch close to the barrel-cylinder gap to ensure accuracy. (Six of the first nine perfect IHMSA scores were Dan Wesson shooters.)
