We have a special edition of Blue Dan Wesson .44 Magnum revolvers serial numbered IHMSA-26 through IHMSA-126. Part of these are the 44VH-8 model which is the heavy shroud ventilated rib gun with 8-inch barrel. The rest are 44V-10 model as shown above with the light shroud and 10-inch barrel. Both are the most popular silhouette models that Dan Wesson makes.

These are being offered — your choice of models — at a net member price of \$299.50 (plus \$3 insurance and shipping). For each gun sold, THE SILHOUETTE will donate \$10 to the Eastern Range Fund.

Please note: Do not request a specific serial number. They will be shipped in the order that orders are received with the first order in for a 44VH-8 getting the LOWEST number available in that model. Same thing with the 44V-10.
