Introducing the President

Robert W. Serva

Hello. Rumors have been circulating on the unnamed party that has purchased Dan Wesson and the assets of the Wesson Firearms Company. It is now the proper time to disclose this and all information on the reconstruction of the Dan Wesson Firearms Company. I, Bob Serva am the President of New York International and Dan Wesson Firearms.

Myself and my dedicated staff have been working to create the proper new vision of the Dan Wesson

Company. We are well on our way with the reconstruction of the company as a whole. I must give special thanks to many fine people which made this opportunity possible. Over the past eight months I have spoke and written to hundreds of Dan Wesson Customers. It has been very inspiring to personally hear the dedication and warm comments of our customer base. I thank all of you for your calls and messages. I want to always keep an open line

to our customers so we can hear their comments be it good or bad. Excellent communications with our customer base will be a great part of our new success. I want to hear from all of you on your likes and dislikes about our products, services and the firearms industry as a whole. I am dedicated to bring Dan Wesson Firearms to a world class company with world class products and with all of your help we together can accomplish this.
