Arms
INCORPORATED

A Proud Tradition in Firearms

Dan Wesson Arms, Inc. 293 Main Street, Monson, MA 01057 413-267-4081

Dan Wesson revolvers are the pace-setters of the industry

- Exclusive quickshift interchangeability of barrels and grips
- Superior quality and accuracy
- Handsome, rugged design combining looks with utility and strength
- Fewer parts than other double-action revolvers ... easiest to service.
- A built-in "fall-safe" device to prevent accidental firing if dropped
- Every revolver is test fired prior to leaving the factory.

When we say we make the most accurate, rugged, dependable and versatile double-action revolvers on the market today **WE MEAN JUST THAT!**

MOST ACCURATE

The exclusive Dan Wesson Arms design — combining a barrel under tension and secured at both ends, a cylinder latch close to the barrel-cylinder gap, plus a flat muzzle — makes this the most accurate revolver on the market.

MOST DEPENDABLE

No other gun can take as much punishment as a Dan Wesson revolver. Drop it, throw sand in it, the Dan Wesson revolver will keep on shooting! And it's **STRONG!** All frames, barrels and cylinders are made of the finest quality alloyed chrome molybdenum steel.

MOST VERSATILE

The only double-action revolvers with interchangeable barrels and grips. In less than a minute switch to any of our four quickshift barrels (2½", 4", 6", 8") or four quickshift one-piece grips.

In addition, the Dan Wesson revolver has fewer parts than competitive double-action revolvers and all parts except one are interchangeable. That makes it easiest for the owner to disassemble, assemble and repair. (Just take the old part out and put the new part in!)

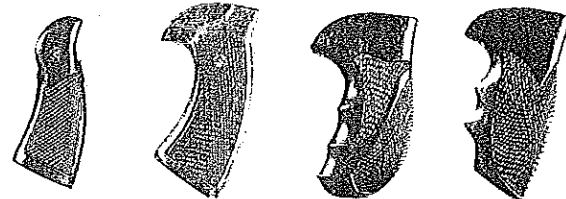

The new Dan Wesson line — the hot shots — offers standard fixed-sight (service) and adjustable-sight (target) revolvers in various model series including bull barrels and ventilated ribs. All are available in .38 special or .357 magnum calibers and each model series has its own Pistol Pac.

pistol pac

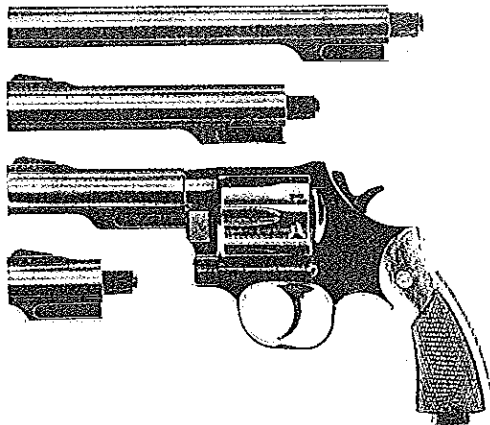

A handsome carrying case which includes the revolver of your choice with three additional quickshift barrel assemblies, an extra grip and a walnut inlet blank for you to carve a personalized grip.

The design and production of quality firearms is part of the proud heritage of the Wesson family of Massachusetts, and experience dating back more than a hundred years is reflected in the craftsmanship that is a vital part of every DAN WESSON ARMS revolver. DAN WESSON ARMS is the only American arms manufacturing company with an unbroken line of personal family in-

volvement dating back to pioneer days. Today the company offers a line of quality double-action revolvers, including models with bull barrels and ventilated ribs. In addition, interchangeable barrels and grips make the guns uniquely versatile — suitable to every shooting situation. And every DAN WESSON revolver is backed by a five-year warranty on all materials and workmanship.
